Pupilpath

- Data not encrypted
- Clunky UI – Android app was barely functional, mobile web UI did not work well
- Mandated by the DOE
- No EULA/Privacy agreement
- Sketchy customer service from parent company
- Students and teachers were not happy using this platform – clunky, unable to use the API to automatically update grades

Currently, the site addresses, <https://www.pupilpath.me/> and <https://www.pupilpath.net/>, which were originally login portals, remain an overview page explaining the functionality of PupilPath
